

ETOOLS2015 Durabook R11 Fully-Rugged Slate Pad

The GammaTech DURABOOK R11 rugged tablet PC features an 11.6" TFT LCD capacitive touch display and a powerful 4th generation Intel Haswell Core processor for workers in the utility, public safety and government markets. It is the lightest 11.6" rugged tablet PC in its class at only 2.73 pounds, while remaining tough with Military Standard 810G and IP65 certifications for drop, shock, dust and water resistance. Its wide operating temperature range of -10 C ~ 55 C means it can stand up to the daily wear and tear encountered in office or field settings. The R11 functions for up to 7 hours and can be customized with a wide array of options, including Microsoft Windows 7 Professional or Windows 8.1 software. Security features include computrace support BIOS, administrator password, TPM 1.2, Kensington lock, and boot password protection. Additional features include a built-in G-sensor, gyroscope sensors, and a light-ambient light sensor; Intel high- definition audio; M2-SATA SSD 64GB/128GB storage; a Micro SD card slot that supports SDHC and SDXC; and a frontside, full HD camera as well as an integrated rear-facing 5MP camera. Wireless communications are provided by Intel Centrino Wireless AC 7260 NGW 802.11 a/b/g/n/AC and Bluetooth 4.0 Class 1.
